# Models: 185-SS, 186-SS

### Cast Stainless Steel Flanged End Basket Strainers

Sizes: 1½" - 20" (40 - 500mm)

Pressure / Temperature – Non-Shock					
Model 185-SS	<b>Material</b> Stainless Steel	Rating 275psi @ -20°F to 100°F 18.96 bar @ 37.78°C 150psi @ 565°F 10.34 bar @ 296.11°C			
186-SS	Stainless Steel	720psi @ -20°F to 100°F 49.64 bar @ 37.78°C 395psi @ 850°F 27.23 bar @ 454.44°C			

Max. temp. can be limited by gasket material. Consult factory.

185-SS	Class 150	)
186-SS	Class 30	0

Models 185-SS, 186-SS

Strainers provide economical protection for costly pumps, meters, valves, and other similar mechanical equipment by straining foreign matter from the connected piping system. Installation of a strainer before mechanical equipment can ensure trouble free service and avoid costly shutdowns for repair or replacement of equipment damaged by foreign matter. The size of the perforation or mesh in the basket screen will determine the smallest particles captured. See Strainer Information section of Mueller Steam Specialty Engineering binder for detailed information including sizes and materials available.

### **Typical Service**

- These rugged strainers can be specified for many applications in chemical processes, including brine, paint, fuel oil, organic and inorganic chemicals, as well as condensers and heat exchangers, to name just a few.
- They are especially suited for medium or coarse straining. For finer straining, see Model 125F-SS or 126F-SS.

#### **Features**

- The angular cutaway design of the baskets allows a straight through flow, resulting in extremely low pressure drop.
- Tapped and plugged NPT drain on the strainer bottom enables easy self-cleaning on open bottom baskets. Simply open the valve or plug on the outlet to flush accumulated particles.
- Bodies can be tapped for pressure gauges, or per customer requirement, consult factory.

#### Construction

• Cover is a flanged bolted design for easy basket removal.

## Capacity

- · Large bodies and generous sized baskets
- Minimum 6 to 1 ratio.

# **Special Coatings and Treatments**

• Pickling and passivation are available, consult factory.

# Steam Jacketing

Available on request, consult factory.
