

## AirCon C Series

Pneumatic rack & pinion

Rotary actuators

Spring return & double acting

Travel stop adjustments 5%

Optional travel stop for 100%

*TB page 1540-18*

Sizes Ranging from 55 in-lbs to 28500 in-lbs Standard

*TB page 1550-18*

**Series XB**

## Extended Range Series

AirCon heavy duty rack and seven pinion actuators offer a broad range of torques up to 1,565,800 inch lbs

## AirMax Cylinder Type

Dependable high-cycle operation

The AirMax Actuator is the most efficient pneumatic actuator available, delivering precise reliable automation for all types of control valves.

*TB-page 1552-18*

*TB page 1556-18*

## Kompact 4 Series

Space saving - fast acting four piston design- increased number of pistons allows for a smaller piston diameter, allowing less air consumption to reduce size while maintaining its high output torques.

## Automator Series

Spring-Diaphragm Actuator

designed & developed specifically for valves that require precise control with low air supply.

Torque range; 133 to 12680 inch lbs

*TB page 1553-18*
